To Whom It May Concern,

It is my pleasure to write this letter of recommendation for River Johnson. I have had the opportunity to observe River's technical growth and work ethic over the past year as a supervisor in the Help Desk class at Barren County High School. During this time, River has demonstrated a natural aptitude for technology and a distinct ability to problem-solve.

In the school Help Desk environment, we are often faced with unexpected technical issues that require immediate attention. River has consistently shown a strong ability to troubleshoot these issues. What stands out most is his persistence; he possesses a willingness to work at a problem until it is fully resolved, rather than seeking a quick fix. This tenacity is a crucial skill in the IT field and speaks to his dedication to quality work.

River is an intelligent young man with significant potential. When he applies himself to a task, he is highly capable and efficient. He grasps complex concepts quickly and can navigate new software or hardware challenges with relative ease. His combination of raw intelligence and practical troubleshooting skills makes him a valuable asset to any team or program he chooses to join.

I am confident that River will continue to grow and excel as he takes on new challenges. I recommend him for your consideration and believe he has the capability to succeed in his future endeavors.

Please feel free to contact me if you have any further questions regarding his qualifications.

Sincerely,

Kris Aquino  
Former Help Desk Teacher  
District Technology Coordinator  
Chief Information Officer
